## Acute Water Shortage In Oakwood Knolls Spurs Board Action

### Seek Road Dedication To Lay New Water Main To North Ave.

Word that Antioch residents in the Oakwood Knolls subdivision were getting but a trickle of water at times caused the Antioch Village Board to act at once to relieve the situation.

Correction will be a 6-inch main from the well in Sequoia Acres to North avenue.

Village Engineer David Miller told the trustees that it would be necessary to lay the line under a highway, and there is none there at present.

The Board gave the go signal to W. H. Curnes, property owner in the area to mark off and dedicate a roadway to the village and when that is done, the water main will be laid. Bonds would be issued to finance the project.

"I could imagine that Oakwood Knolls residents in Wisconsin might get a water shortage, but I had no idea that those in Antioch weren't supplied," commented Trustee E. H. Glenn.

It is expected that Curnes' who owns the land between the village property and a point near North avenue, will be willing to act at once since the water main will be advantageous to any subdivision he might wish to open.

#### New Engineer Present

Engineer Miller's attendance at the Board meeting Tuesday night—his first since appointment to office—was the occasion for discussion of several village projects both on streets and sidewalks.

He had a blueprint for the cleaning and widening of Sequoia creek in the vicinity of Tiffany road bridge.

Village Supt. Edgar Simonsen said that an experiment had been conducted in killing the weeds by spraying at the creek east of the bridge and that it had been successful.

"It helped a lot," he said. The creek appears wider and deeper.

The matter of creek improvement was introduced by Trustee Bernard Osmond, who called for an expenditure of \$250 to clean and deepen that portion of the creek west of

## Matt Sorensen, 73, Long Time Resident Of Antioch Succumbs

Matthias (Matt) Sorensen, 73, 907 Victoria street, died Thursday, July 31 at Victory Memorial hospital, Waukegan, of a heart ailment. He was born January 23, 1885 in Denmark, coming to America in 1910, settling in Antioch where he has resided all his life.

He operated a farm near Antioch for many years and for the past 14 years was employed as custodian at the Illinois Bell Telephone Company offices.

Survivors are two sisters in Denmark, six step-children, Anita Kemp, Champaign; Gussie Pitman and Dorothea Runyard, Antioch; Gertrude Ahrens and Corrine Kenyon, both of Waukegan, and Edwin Hucker of Antioch. His wife, Vida Mooney Sorensen preceded him in death several years ago.

Funeral services were held at 3 p. m. Monday at the Strang Funeral home. Burial was in Hillside cemetery.

## Tot's Face Mutilated By Dog at Loon Lake

More than 100 stitches were taken to close the ugly wounds torn in the face of Joy Radziejewski by a dog at Loon Lake on July 26.

The child was released this week from Chicago Illinois Masonic hospital where she was treated. She must return within a year for plastic surgery.

Joy was watching her parents, Mr. and Mrs. Joseph P. Radziejewski of 6127 W. Lawrence St., Chicago, as they splashed in the lake with their three brothers, aged 5 to 11.

She smiled when a big black dog appeared and seemed unafraid. Suddenly the dog sprang upon her and began tearing her with his sharp teeth and claws. He acted more like a wolf than a dog.

She was freed from its clutches and rushed to the Chicago hospital, her lips torn and hanging down and her cheeks ripped open.

Aug. 17 is her birthday, but it won't be the happiest for her.

WELCOME, SENOR...

### Funeral Yesterday for Richmond Man Killed In Camp Lake Crash

#### James Shotton Buried at Salem Mound, Wife in Critical Condition

The funeral service was held at 1:30 p. m. yesterday at the Strang Funeral here for James Shotton, 41, of R.F.D. 1, Richmond, who was killed Saturday when the car in which he was riding hurtled off a dead-end road north of Camp Lake, Wis.

His wife, Martha, 38, was still unconscious in Burlington Memorial hospital, and in a critical condition. Their dog died in the crash.

Just who was the driver of the car is not definitely established.

The accident occurred at the junction of Kenosha County Trunks AH and SA, which form a T intersection.

Mr. Shotton died of internal injuries and Mrs. Shotton has a possible skull fracture and severe face cuts. She was taken to the hospital by the Twin Lakes Rescue squad.

Mr. Shotton was born Feb. 5, 1917 in Salem, Wis., the son of Walter and Ida Shotton. He was married in 1956 to Martha Barrows.

Although living near Richmond, Ill., Mr. Shotton worked for the Kenosha County Highway Department. He was a veteran of World War II, serving in the infantry, and was a member of Schultz-Hahn Post 2933 American Legion.

Surviving besides the wife and the parents is a sister, Mrs. John Murrie of Salem.

The Rev. Harold Carlson of the Lutheran Church at Richmond officiated at yesterday's funeral service. Burial was in Salem Mound cemetery.

Word from the Burlington hospital last night is that Mrs. Shotton is slightly improved.

#### Saves Exhausted Boys From Loon Lake Water

Mr. and Mrs. H. Gelbke and Mr. and Mrs. Leroy Janszak have much praise and appreciation for Owen Maloney who pulled Michael Gelbke and Glenn Janszak from the water when Mike's boat went to the bottom of Loon Lake Saturday night.

Both boys were almost exhausted when Owen came to their rescue. The mishap occurred 100 yards off shore at Kadlec's resort. The Gelbkes reside on the north shore of Loon lake.

Young Awen is the grandson of former Fire Chief William Fenn, also a resident of North Shore drive.

#### Antioch Lions Club Plans Splash Party Dance at Aqua Center

A splash party and dance at the Antioch Aqua Center is planned for 8:30 p. m. Saturday, Aug. 16, by the Antioch Lions Club.

Invited are members of the club, their wives and guests.

A local orchestra will provide the music for dancing, and other entertainment is planned. Refreshments will be served.

Richard Hawkinson is chairman of the committee planning the event.

## Swimming Exhibitions, Band Concert Sunday At Local Aqua Center

### H. School Band Will Leave Monday for State Fair At Springfield

The Antioch Township High School band will present its second concert of the summer at 7:30 p. m. Sunday at the Aqua Center in connection with swimming demonstrations.

All stages of the swimming lessons taught at the pool this summer will be demonstrated by the nata tors, including life saving. These will be presented after the first two musical numbers. After two more musical numbers the water ballet will perform.

The pool will be closed during the demonstration and then opened again at the conclusion of the program from 9 to 10:30 p. m.

Following is the program to be presented Sunday evening:

Selections from "My Fair Lady"  
Loewe Overture "The Wanderer's Call" Guentzel Novelty "Raggedy Trombone" Kieter

"Waltzing Winds" .... Osterling Request "Original Dixieland Concerto" .... Warrington Stars and Stripes Forever" .... Sousa

An ice cream social, sponsored by the Antioch High School Music Assn., will be held in connection with the concert to raise money to defray the expense of the band to the Illinois State Fair at Springfield.

The band will leave at 7 a. m. Monday for Springfield where it will compete for honors with many other high school bands of Illinois.

## Educational Tax Hike Gets 5 to 2 Approval

### Maxwell Street Days On

This morning looked like moving day for many of the Antioch stores.

Business men carried stocks to tables on the sidewalks where they offered bargains to passers by. It is the opening of two Maxwell Street Days which will continue tomorrow (Friday).

Some of the men and their clerks dressed in fashions becoming to the event.

Children who applied at the stores of merchants participating in the event were given free tickets to the movies at the Lakes Theatre. Adults were entertained by roving accordions, and small children were amused by Mimbo, the clown.

Maxwell St. Days is something new in Antioch and the merchants hope the public likes it.

## Quick Response to Rescue Squad Fund

The immediate response to the letter recently sent out by the Antioch Rescue squad committee has been very encouraging according to Edwin J. Sletten, treasurer.

A partial list of those in Antioch and vicinity who already have contributed follows:

Mrs. Helen Barnes, William F. Schmitt, M. Zima, Mrs. Marie Kloss, Mrs. Lember and Harry and Gladys Wallace, Henry Klafler, Edward E. Zarek, Stella A. Willman, Eleanor Micheli, Joseph Valla.

### \$69,504 Building for July

Village Clerk Clarence Shultz reported \$69,504 worth of building permits: two residences, valued at \$19,654; two garages at \$1,800; gasoline service station at \$22,000; warehouse at \$17,500; car wash building, \$1,000; and alterations to residences, \$7,550.

## 1,293 Persons Voted In Large Summer Poll Vote Was 912 to 371

### Board Canvasses Vote and Starts Work on New Budget for Year

The Antioch Township High School Board of Education expressed gratification over the 912 to 371 vote approval to the 10 cent education tax increase when it met last night and canvassed the votes.

A total of 1,293 ballots were cast in the three precincts, with five spoiled ballots at the high school precinct, three at Lake Villa Grade school precinct, and two at Lindenhurst.

The number was 50 per cent greater than cast at the earlier referendum when a request for a 21-cent increase was turned down.

Antioch did proportionately less to approve the proposal than the other precincts. The vote at the high school was Yes, 532; No, 290. At Lake Villa the vote was Yes, 202; No, 51; and at Lindenhurst, Yes, 178; No, 30.

Through this vote the educational tax will be moved up from 65 cents to 75 cents on the \$100 assessed valuation. The new amount still is lower than most other high school districts in Lake County.

William Brook, spokesman for the board, commented on the valuable assistance of the Citizens Committee.

"The group did an excellent job," he said, "in examining the situation, and making its recommendation."

There was no accounting by board members for the fact that Antioch voters gave a weak 2 to 1 approval while Lake Villa and Lindenhurst gave a 4 to 1 and 6 to 1 sanction.

In addition to canvassing the vote, the Board of education last night turned its attention to the budget for the coming year and approved teacher appointments.

## Physical Examination Required of Freshmen Before A.T.H.S. Starts

Antioch High School officials have announced that all freshman pupils attending school this fall will be required to have a complete physical examination prior to the opening of school September 3. The parents of freshman pupils who have already registered for the fall term have been notified by mail about the details of the examination.

The state law requires that 9th grade students have health examinations. In the past, the high school attempted to administer the examination during the opening months of school. This proved inefficient because of the very busy schedules of the local physicians.

Physicians residing in the Antioch High School district are arranging to examine the children at their offices between August 11 and August 29. However, if family doctors do not live in the high school district parents may arrange for the examination anytime prior to August 29.

Health examination cards have been sent to all parents as well as the local doctors. If they or their doctor do not have any, the high school office will furnish them.

## Co. Planning Director To Address Lions Club At Dinner Next Monday

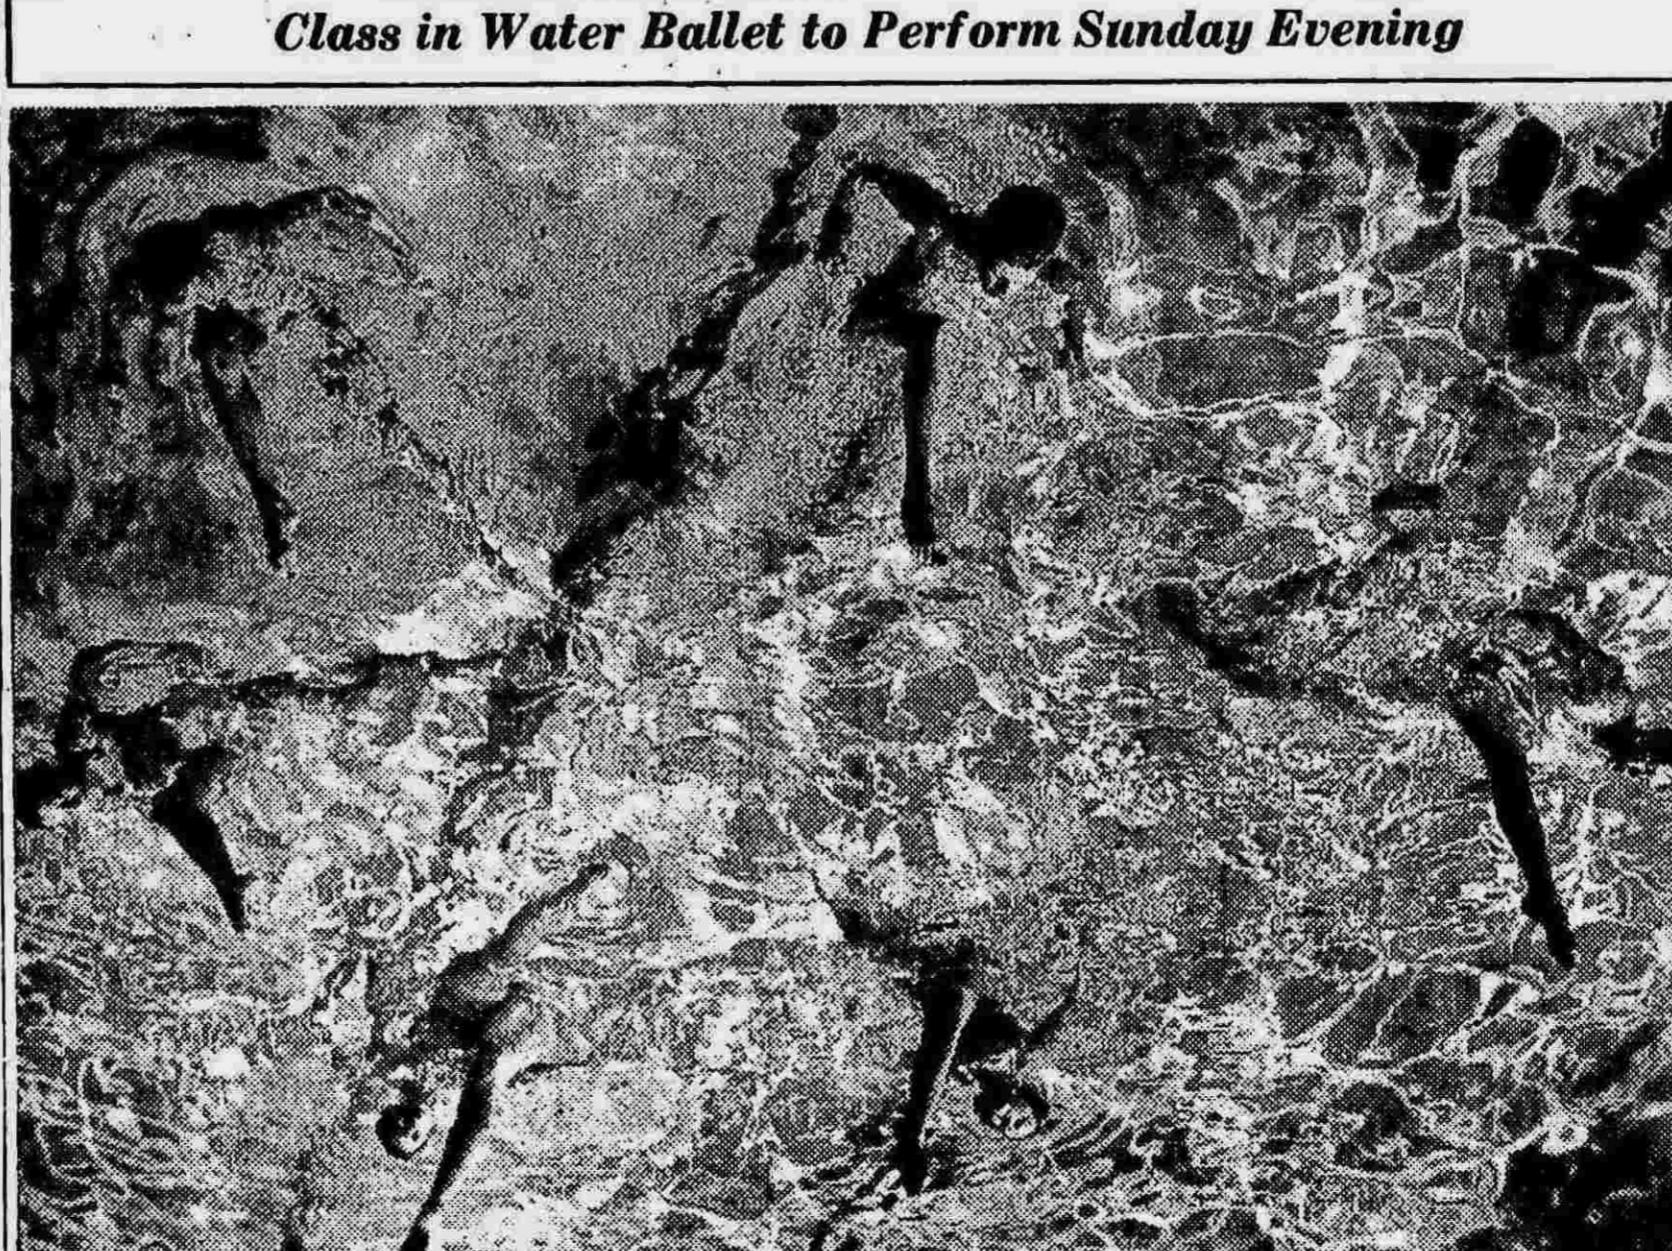

Robert Morris, director of Lake County's new Planning Commission, will address the Antioch Lions Club at a dinner meeting Monday evening at the Ruralite, 1½ miles south of Antioch.

The Commission was formed a year ago last March with Morris in charge. It now has a staff of six with headquarters at 228 N. Genesee st. in Waukegan.

There are nine members on the Commission, one of whom is Mrs. Elmer E. Eberman of Antioch. Stanley Grosshandler of Highland Park is head of the Commission.

Morris will explain the operations of his organization and what it trying to do in the way of helping Lake County plan organized growth.

Attends Conference  
Paul Potter of Lake Villa attended the first national type conference of the American Shorthorn Assn. at Iowa State College, Ames, Iowa, July 31 through Aug. 2.

Water ballet is being taught for the first time this year at the Aqua Center and will be demonstrated to the public at a program Sunday evening. Beginning clockwise at the left bottom corner

**"Sleepers" in the Labor Bill**

Students of the so-called labor reform bill, as passed by the Senate, find many a "sleeper" in its provisions. And there is a very real danger that the bill will become law without the comprehensive open hearings which are necessary if its merits and demerits are to be properly evaluated.

The bill, for instance, does little or nothing about certain tactics used by unions to force employees to join whether they want to or not—such as organizational picketing. It merely outlaws "shakedown" picketing for purposes of extortion, and that is already a crime.

It also fails to reassert the right of states to deal with various labor abuses. Competent lawyers feel that it may make it more difficult than ever to refute the argument that Congress intended to regulate all picketing and to exclude the states from doing so, save where violence or other criminal activities are involved.

On top of that, according to The Retail Barrister, which is a monthly law commentary published by the American Retail Federation, "Two sections of the bill—Section 103 and 607—give union leaders an effective tool for organizing employees by eliminating the employer's right to tell his story to his employees. The bill does this by making it a CRIME for an employer to 'influence' the employee's thinking in any way . . ." The way these provisions are worded, giving employees a wage increase or other such tangible benefit could be construed as such an influence on thinking.

In any event, legislation of such significance certainly should not become law without extensive hearings in which all interested parties can make their views known.

**New Miracles in the Making**

The agricultural revolution, far from being spent, is just beginning. The past 50 years have seen hand and horse labor disappearing from the fields; trends today indicate that the future will bring complete mechanization and precision control of nearly all farmstead operations.

This forecast comes from Earl D. Anderson, president of the American Society of Agricultural Engineers. As he sees it, four major trends are now in being: mechanization of farm chores and materials handling; providing proper environmental conditions for livestock; storing and processing crops for a marketing profit; and strong emphasis on quality control of farm products.

Of these four, he considers the first is probably the more important. In his words: "The farmer who steps down from his tractor equipped with finger-tip control of the hydraulic mechanism is loathe to feed his cattle with a bushel basket." And this farmer no

longer needs to do chores the old hard way. The engineers have developed all manner of highly efficient machines to take the place of human muscle and more are coming.

President Eisenhower has pointed out that farm productivity per man hour has actually doubled since 1940—and this increase is as great as the total increase between 1820 and 1940. Mechanized equipment, electricity, improved fertilizers and pesticides—these are forces that have transformed farming to an almost miraculous degree. And new miracles are in the making.

**Coming or Going?**

The following brief editorial is from The Wall Street Journal:

We were scanning the papers the other day, duly noting the crises that abound and mulling the words of famous people who keep getting themselves and their countrymen in hot water, when we came across the news that this month marks the 100th anniversary of Charles Darwin's theory of evolution.

Further reading of the day's news led us to wish Mr. Darwin was still around so we could ask him just one question: Are we coming or going?"

**Who Is the Winner?**

If Elfrida Von Nardoff, record quiz show "winner" of \$220,500, thought she was going to have a big bank account from her once-in-a-lifetime accomplishment, she had a sad awakening.

After the tax collectors skimmed the cream from her earnings she had left about 50,000 forty-eight cent dollars. That's the price of big wars, big centralized government and piecemeal acceptance of the socialistic philosophy which saddles us with the "welfare state".

**\* \* \*****Time to Make a Decision**

The Rural Electrification Administration borrows money from the government at 2 per cent. But the government has to pay a higher rate of interest on the money that it borrows. This simply means that all the taxpayers are subsidizing REA loans and REA customers. To make matters worse, REA pays no federal income tax.

This situation has disturbed a great many people whose primary interest is the long-range welfare of the farmer. One is Charles B. Shuman, president of the American Farm Bureau Federation. He says: "As long as we depend upon direct government loans, we are subject to the whims of Congress. It is time for rural electric cooperative leaders to make a decision. Do they believe in private enterprise . . . or do they prefer government ownership and control? It is my considered opinion that the greatest threat to the future of our rural electric cooperatives is the threat of a socialist, federally-owned power system."

A similar view comes from Tom Anderson, publisher of Farm and Ranch. He says: "REA should hereafter stay in its own backyard, get its money from private sources just like its competitors do, and pay the same taxes."

The fact is that rural electrification is virtually complete in this country. But REA is still after huge expansion loans and more taxpayer subsidies so that it can move into industrial and other non-agricultural areas of service. It comes as good news that farm leaders and farm spokesmen are now fighting against that.

## States' Rights up To the Senate

Sincere advocates of states' rights in the U. S. Senate have a singular opportunity to demonstrate their concern over expanding federal invasion of the affairs of individual states by pressing for immediate enactment of H. R. 3. Because of its sound and realistic principles this will be accorded enthusiastic bipartisan support in the House where it was passed by a vote of 241 to 155 (July 17).

Many advantages, both to the national government as well as to the states, would flow from H. R. 3. They include the following:

1. It would help clarify the areas of legal jurisdiction between the states and the federal government; it would minimize the pre-emption of state laws through federal court decisions that have increasingly in recent times nullified the effectiveness of state statutes dealing with such serious matters as subversive control, labor and anti-trust legislation.

2. It would reinforce the authority of the states to deal with their own home-grown problems—problems they are eminently better qualified to resolve than are Washington bureaucrats clothed in questionable legal jurisdiction.

3. It would go far toward protecting business concerns and employees, alike, from the destructive and illegal tactics of those who now go virtually unpunished and undeterred as a result of federal pre-emption of state protective laws.

The provisions of H. R. 3 provide a major and constructive step toward stemming and reversing the deplorable trend toward federal usurpation of the prerogatives of the states.

The charges of opponents of H. R. 3 that it would weaken the authority of the federal government and preclude it from carrying out its regular functions are entirely without foundation. Actually, the bill strengthens the authority of the central government since it recognizes constitutional supremacy by expressly providing that federal laws will supersede in areas of direct conflict, and, further provides Congress with the power to give specific jurisdiction to the federal government in any law it passes.

It would be something of a tragedy if the attempt, as embraced by H. R. 3, to dispel the existing confusion and bring about a clearer conception of the respective jurisdictional areas of the states and the federal government is lost through failure of the Senate to act before the on-rushing adjournment. Adherents of the principles H. R. 3 embodies would do well to let their Senators know the urgency of acting favorably on this bill.

### LIST JOB OPENINGS AT DOWNEY HOSPITAL

Dr. W. W. Bourke, Manager, VA Hospital, Downey, Illinois, announces the urgent need for qualified applicants for positions of Dietician, \$4,980 per year; Stenographers \$3,495 per year and \$3,755 per year; and Dental Hygienists \$3,755 per year.

Quarters and subsistence are available on the hospital grounds at a reasonable cost. Usual Civil Service benefits are afforded all employees, including annual and sick leave privileges, Federal Group Life Insurance, hospitalization and medical and surgical insurance, retirement coverage, and periodic pay increases.

Interested applicants should contact the Personnel Office immediately in person or by telephone or letter. Telephone Ontario 2-1900, Extension 425.

**Get Carnival Permit**  
The Order of Knights of Columbus was given permission by the village board Tuesday evening to operate a carnival Aug. 20 to 24 inclusive on the west end of the village parking lot. Appearing before the board on the request were Joseph McGrath and Tom Pechousek. The Rose Carnival Co. now showing at Rozell, Ill., will supply the rides. This is the one that recently served St. Bede's parish.

On Aug. 7, 1942, units of the First Marine Division landed at Guadalcanal, opening the first U. S. offensive of World War II.

**X-Ray Unit Is in Waukegan This Week**

Anyone over 18 years of age may have a free chest x-ray in Waukegan this week.

The Mobile Unit will be in front of the Jane Lee Store, 26 North Genesee Street, during the following hours: Thursday from 10 a.m. to 6 p.m.; Friday from 1 p.m. to 9 p.m.; and Saturday from 10 a.m. to 8 p.m.

Because the Lake County Mobile Unit is worn out, the Illinois State Health Department has loaned the association a unit this week.

The local association is purchasing the safest, most modern equipment available, but manufacture and installation will take several months. The association urges the public to have an x-ray this week, since no more will be given until the new unit is in operation.

Since the purchase of the original unit in 1945, the association has taken almost half a million free x-rays. Funds received from Christmas Seals pay for the x-rays and equipment.

**Lake Villa Library Notes**

Mrs. Ted Belke, Librarian of the Lake Villa Township Library, announces that the library now has a display of excellent art prints. The pictures were received on inter-library loan from the Illinois State Library.

The collection, "Egypt, Brazil and Indiana," represents various schools of art from ancient to modern times and includes such prints as Bruegel's "Flowered Table Cloth," Bruegel's "Sunday on the Plains," and Brueghel's "Wedding Dance."

Every three months the Lake Villa Library will obtain from the State Library an entirely different collection of twenty pictures.

Residents of the township are being invited to an Open House in the library on Saturday, Aug. 16, 2 to 4 p.m. to view the current collection. Coffee, punch and cookies will be served to visitors by directors of the Library Board. Mrs. Vern Blust and Mrs. Clare Appleby will pour. Floral arrangements for the Open House will be made by the Lindenhurst Garden Club, with Mrs. George Skelton, president, in charge.

The special summer reading program at the Lake Villa Township Library has been received very enthusiastically. Circulation figures for the first half of the summer have increased by about fifty percent.

Several interesting and informative adult books have been added to the shelves. Gift books have been received from Charles Wulbenbacher and Paul E. Boces of Lake Villa and Mr. Petty of Deep Lake.

Members of the Older Children's Club are fast completing their Bridges of Knowledge by reading and reporting on twelve books of varied classifications. Several children have started their second Bridge.

The Saturday morning Story Hour for children aged 5 to 9 will continue each Saturday morning 10:30 to 11:30 through August 9. Many young children have enjoyed stories read to them by Mary Wolff, Mrs. Allen Nelson, Mrs. Francis Williams, and Mrs. Marvin Worcel.

Attendance at the "Friday Night Is Music Night" from 7 to 9 is increasing. Many children and adults have found that reading a good book is even more enjoyable while listening to music.

**Illinois Tax Facts**

Since its first meeting, called 50 years ago by President Theodore Roosevelt, the annual Governors' conference has grown in stature and witnessed the rising growth of State government itself. At its recent meeting, presided over by William G. Stratton, Governor of Illinois, some interesting facts were presented to prove that State government has become "Big Government."

In 1913 the combined expenditure of all State governments were approximately \$378 million. By 1956 it had increased to \$21.7 billion. The total income of all states in 1913 was \$345 million; by 1956 it ex-

**Grass Lake Woman's Son Gets Medal**

Cmdr. Heinrich Heine Jr., USN, son of Mrs. Heinrich Heine of Grass Lake, right, is shown receiving the Philippine Legion of Honor medal in Manila for meritorious conduct in the performance of outstanding service to the armed forces of the Philippines. Cmdr. Jose Francisco of the Philippine Navy is shown pinning on the medal, following a parade in Cmdr. Heine's honor. Heine is an officer on the staff of Rear Adm. Edgar Cruse, commander of the naval forces in the Philippines. He will serve as a Navy liaison officer with the Marine Corps Development Center at Quantico, Va.

ceeded \$24 billion.

More illuminating are statistics showing the tremendous growth of State governments during the last decade. From 1945 to 1956, the State expenditure alone for elementary and secondary education increased from \$1 billion to \$4 billion.

The cost of care and treatment of patients in mental hospitals rose from \$167 million to \$682 million. Highway expenditures increased from \$1 billion to \$5.4 billion.

Of interest is the comparison of the expenditures of American states with European governments of approximately the same population. Michigan and Sweden each have about seven million population. While Michigan currently spends approximately \$1.3 billion annually, Sweden spends \$1.9 billion, excluding defense. Although Sweden spends five times as much as Michigan on social security, Michigan spends larger amounts on health services, education and highways.

Ohio and Belgium compare in that they each have approximately nine million population. While Ohio spends \$1.2 billion annually, Belgium's budget, excluding defense, totals \$1.7 billion. Massachusetts, with about the same population as

Denmark, has a larger budget, spending more for health and social security, while Indiana, of comparable size, spends twice as much as Denmark on education.

Statistics such as these prove that ours is a complex world. Our economy and our society are being tested. In such a test we must strive at all times toward the goal of a balance between revenue and spending and a more equitable distribution as well as lessening of the general tax burden.

On August 3, 1942, Mildred McAfee became the first woman to be commissioned in the Navy.

## Airplane Flops Over After 800 Foot Drop in Channel

Egbert Sherbert of Franklin Park escaped with only a head cut when this single-engine plane dropped 800 feet into this three-foot deep channel between Bluff Lake and Petite Lake and turned over. Members of the Chain of Lakes Water Patrol and the Antioch Rescue Squad aided in trying to remove the plane. (Photo by Tom Steiskal; Antioch Photo Service)

### Joins Antioch Clinic

Dr. Fred L. Bobzien

Dr. Fred L. Bobzien, 34, has become a member of the Antioch Clinic, associated with Drs. A. L. Thain and J. W. Kopriva.

He received his pre-medical training at the University of Illinois and is a graduate of the University of Illinois Medical School of the year 1953.

Dr. Bobzien did his internship at St. Mary Nazareth's hospital in Chicago, with four years of residence training in surgery at Hines and West Side Veterans Administration hospital. He is now eligible for the American Board of Surgeons.

He was in the Air Force three years, serving during World War II. He is married and has three children, aged 3, 5, and 7.

He and his family are now living with his mother, Mrs. William A. Bobzien, at Rock Lake.

### Annual Moose Picnic

The annual Moose picnic will be held at Silver Lake, Wis., from 9 a. m. to 6 p. m. Sunday, Aug. 17. To reach the grounds members are advised to turn at Jay's Potato Chip place and proceed to Happy Bill's Resort. The lodge plans an initiation of new members on Aug. 13.

## William J. O'Leary Of Cross Lake Dies

Funeral services for William J. O'Leary, 94, one of the first residents on Pauline Ave. at Cross Lake, were held at St. Basil's Church, 1850 W. Garfield Blvd., on Wednesday, July 30, at 10 a. m.

Burial was in Calvary cemetery, Evanston, Ill.

Surviving him are his children, Margaret, William, and Cecilia McLaughlin of Chicago, Joseph of Hawthorne, California, Gertrude Zimmerman of Evergreen Park, Ill., and Mary Frances Radtke of Cross Lake, Wis.

### One Hurt in Automobile Tank-Tractor Collision

The Antioch Rescue Squad gave first aid to Harry N. Ruttenberg, 18, of Skokie, Ill., after the car in which he was riding collided Monday night with a tractor-tank trailer on Rte. 45 just north of Rte. 173. He suffered a cut left leg which was treated by an Antioch physician.

Sheriff's Deputy Robert Ruggles said the tank-trailer was going north on Rte. 45 and the car of Harry N. Ruttenberg, also of Skokie, was going south.

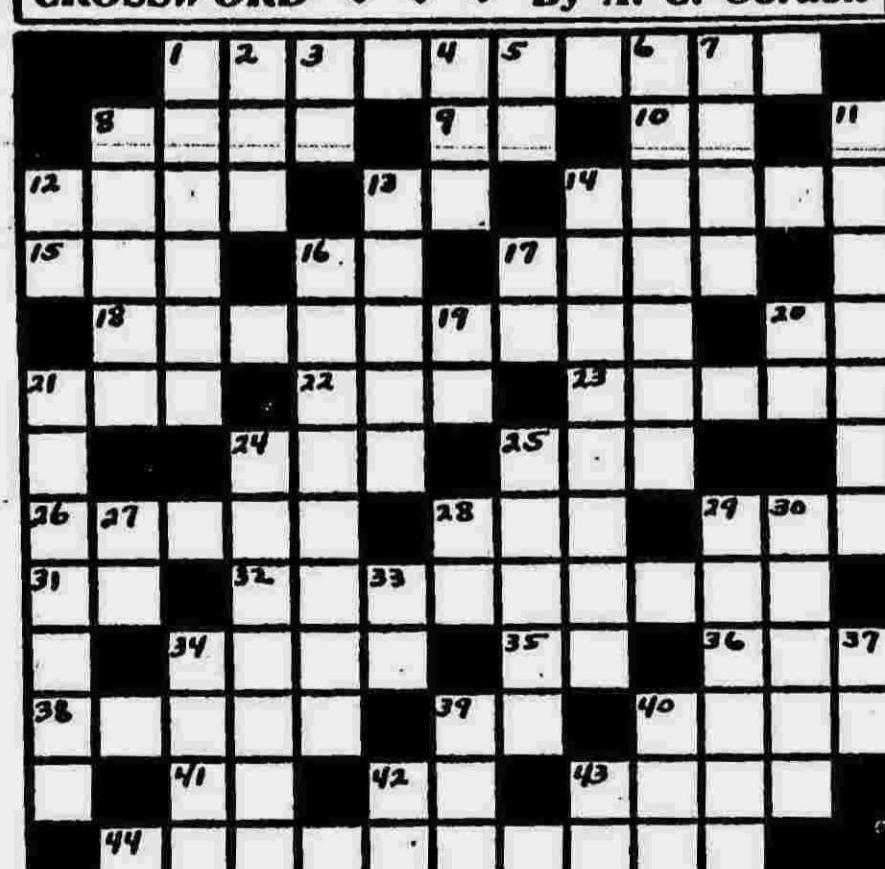

Lawrence V. Samilinski, the tank-trailer driver, told the officer that Ruttenberg's car was partly in the northbound lane and he swerved to avoid a collision. Gravel marks so indicated, it was reported.

### Village Well Managed Local Auditor Reports

Comments in the annual audit of the Village finances by Norman Jedeole brought the printed comment that the financial condition of Antioch is "extremely good, and that the operations for the fiscal year show "good management."

There was a greater expenditure, however, and the cash balance \$3,645 was less than at the same time last year.

juices and coffee.

Consensus for the week ending August 9 is that consumers can enjoy substantial savings in food budgets by taking advantage of meat promotions and abundant produce values.

Live cattle prices were steady to weaker in Chicago last week, a pattern matched by wholesale beef prices where the lower range was from 50c to as much as \$2. Hog receipts in Chicago exceeded those of other major live markets, and arrivals generally were the greatest in five weeks. Live prices were depressed, although, at wholesale pork remained steady to \$1 higher.

Against this general market picture, these typical prices are noted in metropolitan area retail outlets:

**Beef:** Prices generally sliding, considering the time of year, demand, and volume. Consumers will find advantages in roasts, blade cut pot roasts quoting 48-49c, round bone 65-69c, rib roasts 69c, but 1 through 5th ribs (and steaks) 79c; ground chuck 69c and hamburger 55-59c, and in some cases 49c promotionally. In steaks, rounds quote 89c, sirloin \$1.09 and porterhouse \$1.19, but expect spot promotion values in more stores.

**Pork:** Fresh pork continues steady and along with processed hams at continuing high levels, although this is lower than a few weeks ago and expected to drop lower in the fall. Rib end roasts quote 43-49c, loin end 69-83c, butt roasts 59c on heavy demand, center cut chops 95-98c, spare ribs 65-69c. Smoked butts quote 85-89c, picnics 49c with neither considered to be values. Top first brand bacon quotes 89c, second lines 75c.

**Poultry:** Less promotional activity this week as emphasis shifts to beef. Fryers carry two price ranges for value consideration—whole birds 33-35c and cut up birds 35-37c. Large grade A white eggs quote 53-55c on an advancing market, medium sizes are scarce, and pullets show a 39c price.

**Produce:** The word "cheap" still applies broadly to this market, some prices including: sweetcorn down, quoting 1 doz. 49c, celery 19c, lettuce possibly as low as 15c, grapes 18c, peaches generally 3 lbs. 39c, and seldom higher than 2 lbs. 29c, blueberries 29c pt. The full August calendar of produce values includes (\* denotes peak supply period); Fruits—avocados, bananas, blackberries\*, blueberries, cantaloupe, figs\*, grapes, honeydew melons, lemons, limes, nectarines\*, peaches\*, Persian melons, plums, watermelon. Vegetables—Lima beans\*, snap beans, beets, cabbage, celery, sweetcorn\*, cucumbers, eggplant\*, lettuce, okra, green onions, peppers, potatoes, radishes, squash.

Dairy—Swiss and Cheddar cheese are values. Milk production has exceeded demand and has become a greater value recently in fluid

form. Merchandising effort creates cheese values despite little change in wholesale markets.

The Antioch News and Antioch Theatre invite Edith O. Hansen, 905 Hillside Ave., Antioch, Ill., and one to attend Sunday, Monday or Tuesday's showing of "10 North Frederick" at the Antioch Theatre.

## Tips on Traffic Safety

By  
CHARLES F. CARPENTIER  
Secretary of State

Needless to say, your eyes play a most important part in your driving. Here are a few tips which will allow you to use your eyes to the best advantage while behind a steering wheel.

You instance, when going straight and on turns learn to steer by occasional brief glances ahead at the center of your intended driving lane. Your vehicle then goes on center in the lane, and your eyes are not tied to your steering path.

Anything holding your eyes in driving is dangerous, so keep your

eyes moving. Of course, always glance left and right before starting out on a green light. On long trips, halt for a brief rest the moment your eyes tire.

When driving, it is also important that we are seen. Tap the horn or flick the headlight beams when you are uncertain about someone you need to trust. Do it early so you can still stop. When turning, get in the proper lane early and give an advance signal.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTER, Secretary of State, Springfield, Illinois.

## Improvements in Mail Service as New Postal Rates Became Effective

Postmaster General Arthur E. Summerfield announced today he is taking steps to provide further improvements in the mail service as the new postage rates became effective August 1, 1958.

Mr. Summerfield said he is issuing instructions in The Postal Bulletin to the nation's postmasters to begin immediate surveys to determine whether:

1. Essential window service in post offices should be made available earlier and/or later in the day than now.

2. There are enough collections of mail daily from street letter boxes, as well as from branches and stations, to insure maximum speed on local deliveries and the most efficient use of outgoing transportation for out-of-town mail.

The surveys are to be completed in 90 days, and postmasters are being directed to submit requests for urgent needs to Regional Directors, who are to give the fastest possible consideration to such requests. Also, consistent with funds available, modern equipment for collection, handling, and distribution of mail will be installed wherever possible.

"I want the new postage rates, which are certainly long overdue, to signal the beginning of the greatest period of postal progress in American history," Postmaster General Summerfield commented. Meanwhile, he noted the Post Office is already putting into effect several improvements coincident with the new rates starting immediately.

For example, new postal rate law enables the Department to forward all mail with insufficient postage and collect postage due at the other end. This eliminates the many delays of the old system which "short paid" mail often was returned to the sender.

Other improvements include acceptance of additional materials for the blind forwarded by law free of postage, and acceptance of small parcels weighing up to 16 ounces (instead of 8 ounces) at the low cost third class postage rates.

Meanwhile, Mr. Summerfield re-emphasizes today that new postage rates passed by Congress went into effect starting promptly at 12:01 last Friday.

Under the new law, the Post Office Department has no alternative but to collect postage due on mail bearing insufficient postage after

the new rates started.

At the same time, the Postmaster General listed the new rate changes which most Americans will be concerned with. These relatively simple changes include the following: First class letters will be 4c an ounce instead of 3c. Air mail letters 7c an ounce instead of 6c. Post and postal cards 3c each instead of 2c. Air mail post and postal cards 5c each instead of 4c. First class letters to Canada and Mexico will also be 4c an ounce and air mail 7c an ounce.

Additionally, Mr. Summerfield these other highlight facts about the new rate changes:

"Drop" letters (letters for local delivery where carrier service is not provided) will be 3c an ounce instead of 2c.

"Transient" second class rates for mailing newspapers and magazines will be 2c for the first 2 ounces and 1c for each additional ounce instead of 2c for the first 2 ounces and 1c for each additional 2 ounces.

Third class mail pieces, such as circulars and samples of merchandise, will go from 2c each for the first 2 ounces and 1c for each additional ounce to 3c for the first 2 ounces and 1.5 cents for each additional ounce or fraction of an ounce.

But pieces of odd shape or size sent as third class mail will cost a minimum of 6c each. The former minimum is 3c.

Books are 9c for the first pound and 5c for each additional pound, and the "book" category is being broadened to include school test materials, printed music, phonograph recordings, and manuscripts. The rate had been 8c for the first pound and 4c for each additional pound.

Special library postage rates of 4c for the first pound and 1c for each additional pound are not changed, but additional material for libraries will be mailable at these rates; such as printed music, bound volumes of academic theses, and phonograph recordings. Mailings at this rate may be sent anywhere in the domestic service. Formerly they could not be sent beyond the third zone or the state in which mailed.

Domestic fourth class parcel post rates are not changed.

The 4c ounce rate for first class mail also applies to mail other than letters. For example, the small parcel that is sent first class to speed delivery will cost 4c an ounce. It should be noted that the 7c an ounce

air mail rate applies for air mail weighing to and including 8 ounces. Above 8 ounces such mail will be sent at air-parcel post rates.

New stamps, postal cards, and stamped envelopes are on hand at all post offices. They include: The regular lavender Lincoln 4c stamp for letters. The new 7c air mail stamp with its white silhouette of a jet airliner against a blue background. The 3c postal card with the Statue of Liberty design in purple. The 5c air mail postal card in red, similar in design to the old 4c blue air mail stamp except for the change in denomination. A 4c embossed envelope in lavender, with the portrait of Benjamin Franklin. A 7c embossed air mail stamped envelope in deep blue, similar in design to the old 6c envelope except for the change in denomination. (The embossed stamp on the old was red.) Supplies of these items are good, although in some instances post offices will meet demands for stamped envelopes with the stocks they have on hand of 3c envelopes and 6c air mail envelopes "overprinted" with additional postage to provide for the new rates.

Supplies of new stamps also are available at post offices in coils and booklets.

Persons still having supplies on hand of 3c stamps, 6c air mail stamps, 2c postal cards, and 4c air mail postal cards, may use them by adding a 1c stamp, which is also in good supply at post offices over the country.

The new postage rates will not make any change in the Post Office Department's "air lift", by which regular first class letters are flown in certain localities, except, of course, such letters will now require the new 4c first class letter rate.

A new proviso under which mail with insufficient postage is subject to a special additional charge of 5c,

plus the postage due, has been suspended temporarily beginning August 1, until patrons become familiar with the new rates. However, "short paid" mail will still be subject to standard postage due charges—for example, starting Aug. 1, the one ounce letter containing only a 3c stamp will be subject to an additional 1c postage due charge to the addressee. If the addressee refuses to pay the postage due, it will be returned to the sender (provided he has a return address on the mail) and the due postage collected. If the mail has no return address, it will be handled as "dead" mail, which may be destroyed.

New postage stamps scheduled for issue in the future will be issued in denominations appropriate to the new rates. For example, virtually all new commemorative stamps will be in 4c denominations.

Special postal services charges, such as special delivery and registry charges, are not changed under the new rate law.

**How many of these electric helpers have you added since 1947?...asks LITTLE BILL**

You're an average family if —in the postwar years you've added six new electrical appliances. Shown here are a few typical examples.

This is why you're using far more electricity nowadays than you did a few years ago. And why life is a lot easier. But of all the things you buy today, electricity has gone up less than almost anything else.

So, while your bill may be a little higher, electricity is actually doing nearly twice as much work for the money now as it did years ago.

See how little it costs to run each of these electric helpers.

a—Your TV set—2 hours for 1/16¢. The world's finest entertainment.

b—Air conditioner—less than 3¢ an hour. This 1/2-ton unit cools, dehumidifies air in 2 big rooms.

c—Record player—4 hours for 1¢. 6 long-play albums played for 1¢ worth of electricity.

d—150-watt lamp—over 2 hours for 1¢. Good reading light costs only pennies a week.

e—Radio—3 hours for 1¢. Entertains you for just pennies a week.

f—Floor polisher—1 hour for 1¢. Waxes, polishes floors to a bright, shiny finish—saves hours of work.

Other appliances shown include:  
(g) electric train—8 hours of fun for just 1¢.  
(h) electric clock—accurate time for 1¢ a week.

## Bowling Leagues Set Dates for Meetings At Antioch Recreation

Bowling time is not far around the corner as evidenced by the call of league meetings at the Antioch Recreation Lanes on Rte. 173. A representative of each team is to contact the secretary of the League and attend the meeting.

Those in charge say that new bowlers wishing to bowl in the leagues are to contact either the secretaries or leave their name at the bowling alley. At this time it appears as though there will be openings in the Wednesday evening mixed league or the Thursday afternoon ladies' league.

Meetings have been scheduled for the following nights by these leagues:

Thursday, Aug. 17, at 8 p. m.—Major Gutter Ball Girls—at Antioch Bowl. Secretary, Mabel Lou Dow.

Monday, Aug. 11, at 8 p. m.—Tavern League; secretary, Irv. Walsh.

Tuesday, Aug. 12, at 8:30 p. m.—Pin Toppers League—Sec., Ruth Seyfarth.

Thursday, Aug. 12, at 8 p. m.—Thursday Business Men's League; sec., Bruce Dalgaard.

Wednesday, Aug. 13, 7:30 p. m.—Pinspotters Ladies League, sec., Thelma Keulman.

Wednesday, Aug. 13, 8:30 p. m.—Wednesday Evening Mixed League, sec., Clara Clemacher—Trevor phone Un. 2-2044; pres., Al Dettmering, Ant. 209-R-1.

Wednesday, Aug. 13, 8:30 p. m.—Wednesday Business Men's League, sec., Don Hills; pres., Bill Yucus.

Thursday, Aug. 14, 8 p. m.—Thursday Bi-State League; sec. Ed Slavic.

**Rev. Dale Van Hovel Attends Conference**

Ministers of new Baptist churches, and laymen and ministers of churches which sponsor new ones, are meeting August 2-9 at the American Baptist Assembly, Green Lake, Wis., for their third annual National Church Extension conference.

Among the delegates is the Rev. Dale J. Van Hovel, pastor of Lakeland Baptist church, Lake Villa, Ill., a resident of Antioch.

Highlighting the conference are five special lectures by a realtor, an attorney, a builder, an insurance underwriter, and a fund-raising campaign consultant, explaining the specific problems which a new church may have to deal with in their areas. The speakers are Ivar Turnquist, Chicago; H. B. Hardy, Bensenville, Ill.; J. H. Heindel, River Forest, Ill.; Robert Zander, Park Ridge, Ill.; and Rev. Wesley Dixon, Levittown, Pa.

**Band Sees Chicago Show**  
Summer band members at the high school went by bus on Saturday evening and attended the stage performance of "My Fair Lady" in Chicago. They were chaperoned by Mr. and Mrs. Louis Chenette, Mr. and Mrs. Kenneth Smouse and Mrs. Kenneth Young.

One Killed.—One Injured Sunday

Edward Schutz was killed and Jim Fitzgerald seriously injured Sunday at 3 a.m. when their car went off the road 1 mile south of Spring Grove. State police officers Francis Meier and Bud Scheer attended this and another fatal accident on the same road about 4 miles south the previous evening.

### The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Matthew 7:7-12

Lead us not into temptation, but deliver us from evil. (Matthew 6:13.)

Pedro could not be more than twenty years old. He was different from those boys his own age who were foolishly turning to liquor, or to drugs like marijuana.

Although Pedro did not turn to cued of not enjoying life. To the contrary, his Christian life seemed to invite adventure.

"I believe in prayer," he said. "When my father died, we received no more pension. I have been unable to find work. My younger brother and my mother, and I do not find life easy. Sometimes we go to bed so hungry we cannot sleep. And then I pray. As I pray for others, I forget my own hunger, and sleep comes easily. I sometimes find myself tempted; but then I pray, and God delivers me from evil."

At all times, God is ready to supply our needs, but not always in ways we hope for or expect. In His divine wisdom, He does it in His own way.

**PRAAYER:** O God, Thou knowest our deepest needs. According to Thy divine knowledge, satisfy our hunger of body and soul. Strengthen us so that we may grow in knowledge and love of our Saviour, Jesus Christ, in whose blessed name we pray. Amen.

**Thought for the Day:** God supplies our needs in accordance with His wisdom and our trust in Him.—Charles O. Butler (Pennsylvania)  
World-wide Bible reading—Esther 5:1:14.

## Water Shortage.....

(continued from page 1)  
Tiffany road "for which we are responsible."

"Clearing of culverts and tile removing surface water in the east part of the village along the Soo Line were discussed as a matter of immediate attention.

Miller was informed that Willow Dale Dairy is considering a water main to its plant past the Antioch Lumber and Coal Co.

He was authorized to contract for a water pumping control box which will regulate the water in the tower, but not to spend more than \$450.

**Will Buy New Snow Plow**

In other business the trustees voted to advertise for bids on a new snow plow. The bids will be opened at the next Board meeting on Sept. 2. Bids also will be sought on the purchase of a new two-way radio for the police headquarters. Tires also will be purchased for the village truck.

The board discussed possible location in Sequoit Acres for industry which has indicated that it wants to locate in Antioch.
